

Scale Model Picnic Table

- Do you like...** Working with your hands?
Building and assembling things?
Learning by doing?
Taking things apart?
Working on things and making them better?

if yes, how about becoming a tradesperson!

Trade Facts

DID YOU KNOW?

While still in high school, you can test out a trade first to see if you like it through a Youth Apprenticeship Program.

OYAP is a high school program that allows you to try a wide variety of apprenticeship careers in the skilled trades such as carpenter, hairdresser, auto mechanic, and more. You start your journey as soon as grade 11 through the Cooperative Education Program.
